# ABOUT US

**DEUTSCHE KRAN EQUIPMENT TRADING L.L.C** was established in 2005 by the experts . Leveraging years of deep-rooted expertise, we distinguish ourselves through the seamless supply and meticulous maintenance of high-quality equipments.

We take pride in our position as industry experts, a reputation built on our proven track record in equipment supply and comprehensive maintenance services."

# MISSION & VISION

To be the preeminent provider of highest level of value-added construction services to our customers at fair and market competitive prices by establishing a lasting & successful partnership with them throughout the construction process and exceeding their expectations and gaining their trust through exceptional performance by every member of our team.

## OUR MISSION

To maintain the highest levels of professionalism, integrity, honesty, and fairness in our relationships with our suppliers, subcontractors, professional associates and customers.

## OUR VISION

To be the builder of choice for value minded clients and high performing employees.

# QUALITY POLICY

## Customer Satisfaction

---

We are committed to deliver customer satisfaction at all times by continuously

improving and delivering high quality products and services, in order to meet and surpass the customer expectations and requirements for every facet of our business.

We aim to achieve these to the maximum level, at a competitive cost and with compliance to all regulatory bodies at all times and at minimal cost.

To ensure the working effectiveness of the company's services and procedures, we keep improving a quality management system by setting ourselves challenging objectives and providing resources to achieve these

# QUALITY POLICY

## Customer Satisfaction

We are committed to deliver customer satisfaction at all times by continuously improving and delivering high quality products and services, in order to meet and surpass the customer expectations and requirements for every facet of our business.

We aim to achieve these to the maximum level, at a competitive cost and with compliance to all regulatory bodies at all times and at minimal cost.

To ensure the working effectiveness of the company's services and procedures, we keep improving a quality management system by setting ourselves challenging objectives and providing resources to achieve these goals. We will ensure timely delivery of projects within framework of contract documents and Authority requirements.

# QUALITY POLICY

## Commitment to Innovation

We consider that learning and development is a continuous process. Our objective is to constantly improve upon our already established standards to maintain our presence as leaders in the construction industry.

## Teamwork

To ensure that the policy is successfully implemented, all staff is trained and responsible for identifying customer requirements and ensuring that the quality of work carried out and correct procedures are followed to meet those requirements. Within this policy, we are committed to operating our services under the disciplines and control of a Quality Assurance System that conforms to the requirements of the Construction Industry Quality Standard in UAE.

# HSE POLICY

## Safety & Healthy Environment

our employees are the most important assets. Therefore, we committed to provide and maintain a safe and healthy working environment with a focus on continuous improvement toward an accident-free workplace through effective administration, education, and training, in line with the industry standards and legislative requirements.

We follow these mandatory rules in everyday work with our employees, clients, visitors, and anyone else who may be related to our operations and integrate in all our projects the best health and safety practices where the wellbeing of all individuals is sustained. We shall strive to eliminate any foreseeable hazards which may cause property damage, accidents, or personal injury/illness.

# HSE POLICY

We provide sufficient instructions and information, and adequate training, to ensure employees are competent to do their work, engage and consult with employees on day-to-day health and safety conditions and implement emergency procedures.

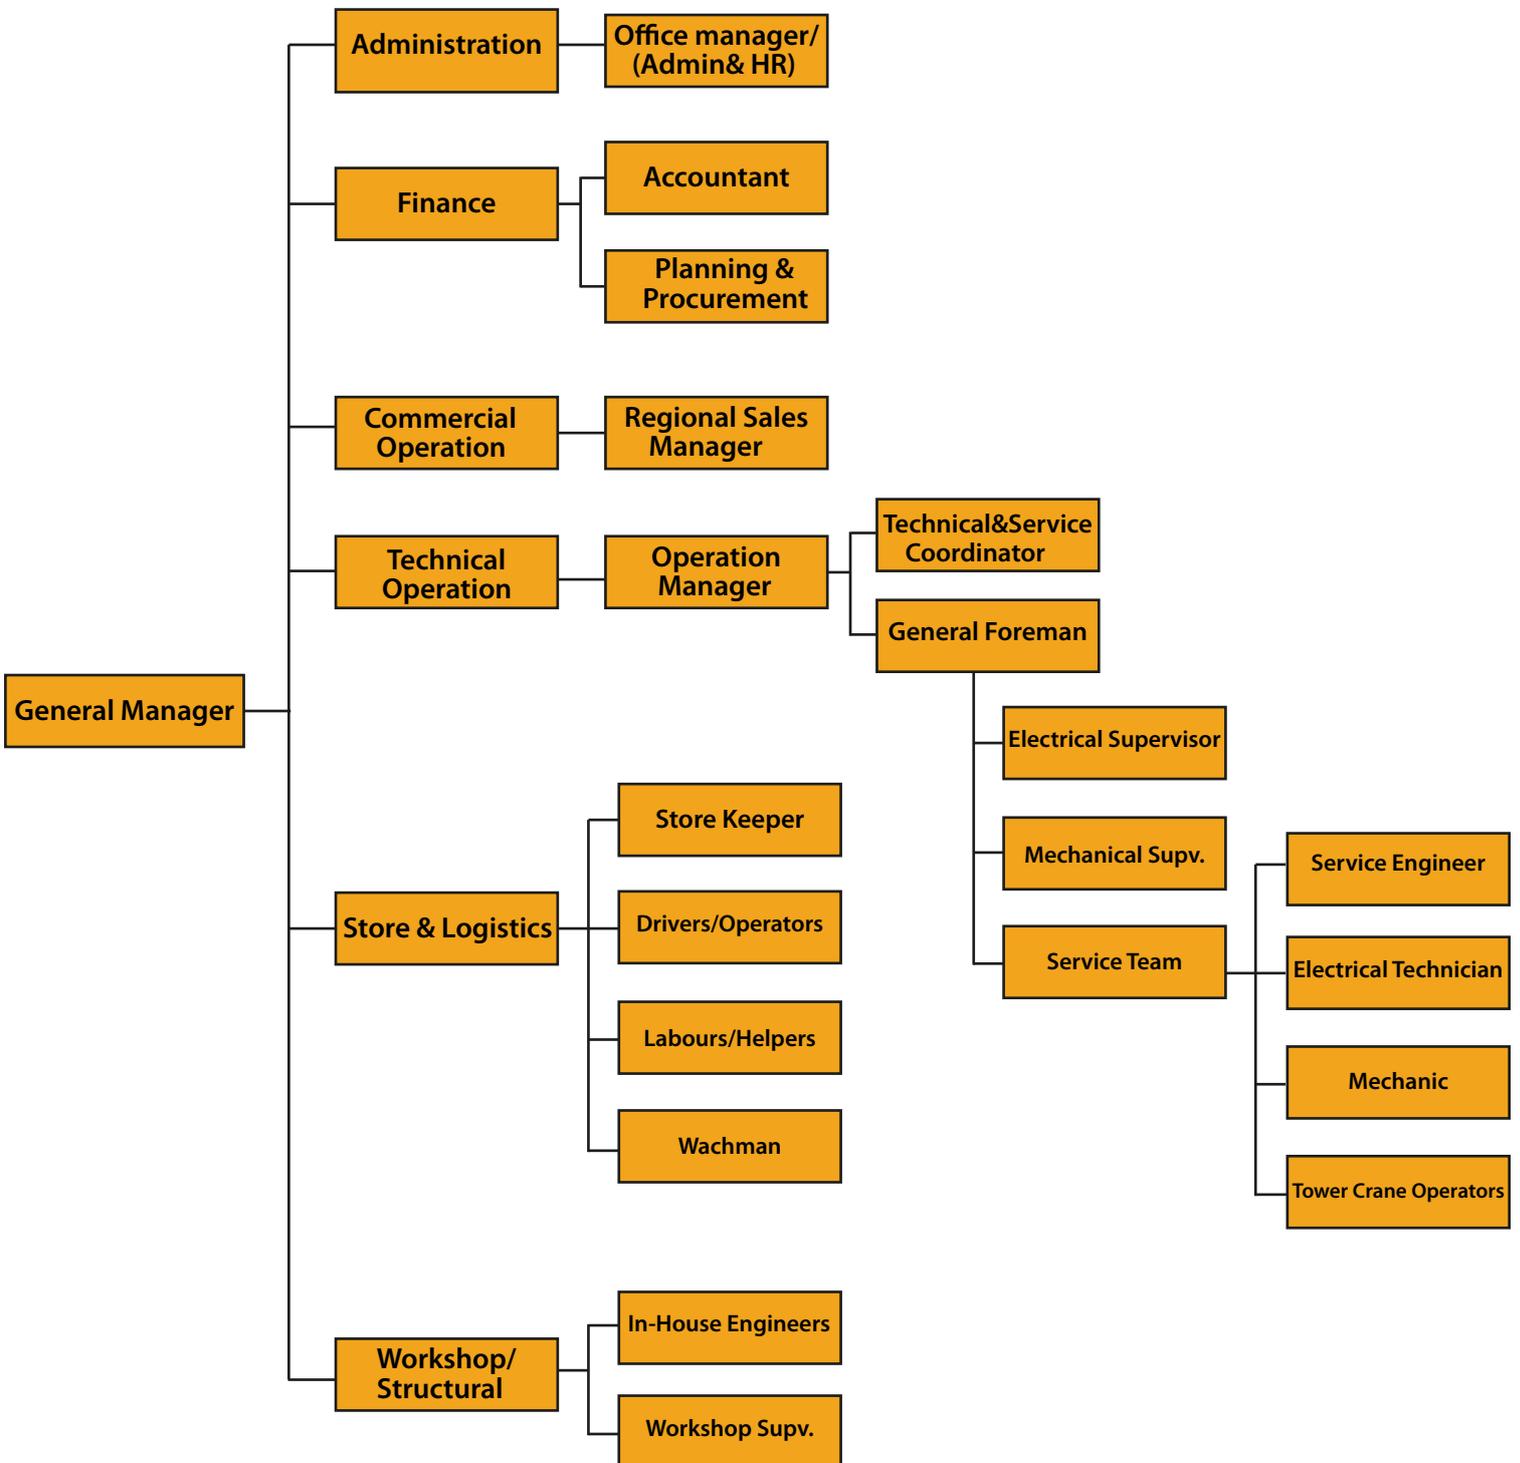

- To make sure that risk measures are taken into account for responsibilities that include new or unusual activities.
- To ascertain that all individuals entering the construction site are wearing the necessary protection clothing and equipment in accordance with the Construction Regulations during all project phases before and after completion.
- To record all incidents and report any major accident, injury or work-related disease to the concerned department in accordance with current regulations.

# HSE POLICY

- All the plans and procedures are regularly monitored and audited, both at the project and corporate levels to ensure compliance with contractual requirements.
- The Company follows guidelines of its HS & E Policy and implements procedures detailed in this HS&E Manual.

The organization as a whole and every individual employee in particular plays an important role in guaranteeing this incident free working environment and preventing any adverse impact of your activities on the environment whilst ensuring the level of quality expected our clients.
